STUDIO

Let me
capture
your
memories!

Family
Portfolio Shoot

because every picture by Charlotte
tells a story...

Welcome...

My private studio is tucked away on a private farm just in the outskirts of Leeds. It has been designed to immediately make you feel relaxed and get a big dollop of 'Female empowerment'.

It's a place to celebrate all women. Mothers, Mums to be, New Mums and of course their beautiful children. Even if you won't be appearing in the image yourself, you will be treated like the queen you are.

Of course my studio welcomes boys in too! I am in fact a Mum of 3 boys and creating mother and son portraits is a favourite for me.

I will work with each client individually to tailor the session to suit your needs. I direct you throughout the shoot so all you need to think about is having fun.

The Style

Family Shoot

Family sessions take place in the white room in my studio. This provides the perfect soft neutral backdrop for timeless family portraits. I recommend wear neutral tones and avoiding heavy patterns. Each session will vary slightly from one family to the next. Before your shoot I will ask for the ages of your children so we can plan the shoot accordingly. I as a mum of 3 myself I know we can't always plan ahead on the mood of your little one with how they will feel on the day. However, I have plenty of tricks up my sleeve to keep them happy and entertained throughout the session.

How long will the session take?

Family sessions last approx 1-1.5 hours. I try to keep it as quick as I can so little people don't get board or tired. For 6months + I ask to try to time to session best you can around their nap and feed times so we can hopefully grab the images in these moments.

How/when do I choose my images?

You will receive a full online gallery within 10 days from your shoot. These images are unedited and have my watermark, from these images you choose whichever ones you want to be fully edited. Once you have done this you will receive a new gallery with your chosen edited images. They will be fully downloadable and you can share the link with family and friends.

Investment

There is of course no better memory than looking back at family photos. They change so much in those first few years so myself and the team are always honoured when a family trust us to capture these special memories.

Details:

Session time 1-2 hours

Online viewing gallery to share with family
with 6 edited digital images of your choice

£325

(Additional images are £25 per edit)

Full lightly edited gallery available to buy on request

Products

Bring your images to life by hanging them on the walls at home or in a beautifully designed family album. To keep your digital images safe you could order a bespoke USB box.

I can talk you through my products and help create the right choice for your home.

Prices vary depending on product.
