STUDIO

Let me
capture
your
memories!

New Born
Session

because every picture by Charlotte
tells a story...

Welcome...

My private studio is tucked away on a private farm just in the outskirts of Leeds. It has been designed to immediately make you feel relaxed and get a big dollop of 'Female empowerment'.

It's a place to celebrate all women. Mothers, Mums to be, New Mums and of course their beautiful children. Even if you won't be appearing in the image yourself, you will be treated like the queen you are.

Of course my studio welcomes boys in too! I am in fact a Mum of 3 boys and creating mother and son portraits is a favourite for me.

I will work with each client individually to tailor the session to suit your needs. I direct you throughout the shoot so all you need to think about is having fun.

My Newborn Style

Your New Born Session

When to book?

I always suggest booking a new born session before your baby is 2 weeks old. 5-10 days is usually the best time to get those yummy images while baby is still-so sleepy. In saying this I have shot older babies and created beautiful photos so if you haven't had a chance into book in those early days don't panic! We will still get beautiful images. When possible simply get in touch before baby arrives so I can set aside a few days in my diary ready for your session...as we never know exactly when baby will make their arrival!

Once you have booked

Before your session I will send out an outfit planning guide so if you or older siblings are planning on being in some of the photos with your new arrival you can be styled and ready.

When you arrive at the studio myself and the team will make sure you are all comfortable and relaxed. This is your opportunity to sit back and let us do the work...something that doesn't happen much in parenthood!

We will discuss with you colour tones and posing to come up with a perfect plan for your session. I tend to shoot a lot in my white room so nude/ beige /cream and white tones work perfectly.

How long will the session take?

We set aside enough time for you and baby so there is no rush during your session. When baby needs changing and feeding we will enjoy getting your next set up ready to shoot.

We set aside 2-4 hours for a new born session.

How do I choose my images?

You will receive a full online gallery with all our images with my watermark, from these images you choose whichever ones you want to be fully edited. Once you have done this you will receive a new gallery with your chosen images. They will be fully downloadable and you can share the link with family and friends. and share with family and friends.

Investment

There is of course no better memory than looking back at new born photos of your baby. They change so much in those first few weeks so myself and the team are always honoured when a family trust us to capture these special memories.

Details:

Session time 2-4 hours (all depending on babies mood)

Online viewing gallery to share with family
with 6 edited digital images of your choice

£350

(Additional images are £25 per edit)

Products

Bring your images to life by hanging them on the walls at home or in a beautifully designed family album. To keep your digital images safe you could order a bespoke USB box.

I can talk you through my products and help create the right choice for your home.

Prices vary depending on product.
